

Magnetic Card Reader Example – Windows Mobile SDK – C#

This sample application demonstrates how to read and display data from a magnetic card through a Zebra printer. The Zebra printer must have a magnetic card reader in order for the application to work properly. The application was developed using MS Visual Studio 2008 with the Windows Mobile 6 SDK. The application is designed to run on Windows Mobile 6.1 and requires .NET Framework 3.5. This application is provided AS-IS, for example purposes only.
